SUMMARY

Computer Science undergraduate pursuing a Bachelor's in Engineering with a strong interest in Java, Python, OOP's, SDLC, and REST APIs. Experienced in developing scalable applications through team-based, role-driven projects. Seeking an entry-level Software Engineer role to build efficient and scalable solutions.

SKILLS

Proficient in programming languages including **Java and Python**, with strong experience in **web technologies such as JavaScript and React.js**. Skilled in working with databases like **MySQL, MSSQL, and SQL**, along with hands-on expertise in tools such as **Git, GitHub, VS Code, Docker, Postman, and Jupyter**. Possesses an intermediate understanding of core concepts, including **Data Structures & Algorithms, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), REST APIs**, and Computer Networks. Additionally, has basic knowledge of Linux and familiarity with Generative AI technologies.

EXPERIENCE & PROJECTS

AICTE EDU SKILLS

April – June 2025

Web Development Full Stack Internship

Built and deployed a full-stack web application using Node.js, Express.js, Tailwind CSS, and JavaScript with secure JWT-based authentication and client-side form validation. Automated deployment pipeline using GitHub Actions and Render, reducing manual deployment effort and enabling continuous delivery.

AICTE EDU SKILLS

January – Mar 2025

Data Engineering Internship; curriculum provided by AWS Academy.

Completed a 10-week internship in AWS Data Engineering and Full Stack Development, gaining a team-based, role-driven experience with cloud services and web application development. Worked on integrating frontend, backend, and AWS technologies while strengthening skills in APIs, databases, and data processing.

MyCareerMap | *React.js, Node.js, MongoDB, Express.js, Generative AI API*

[\[LIVE \]](#) | [\[Github \]](#)

MyCareerMap provides a suite of tools to assist students in their career journey. The system leverages Google's Generative AI to provide dynamic and context-aware responses for the chatbot and interview question generation. **Worked in a team of 4**, responsible for Testing & Deployment.

AIGOVIZ | *Interactive Algorithm Visualizer | HTML5, CSS, JavaScript*

[\[LIVE \]](#) | [\[Github \]](#)

Web app with real-time animations of 10 sorting/searching algorithms, live performance metrics, and color-coded visualization. Interactive Controls like Speed adjustment, pause/resume, array customization, and responsive design with modern UI.

EDUCATION

B.Tech in Computer Science Engineering

Narayana Engineering College, Nellore | 2023 – 2026 | CGPA: 74.03%

Diploma in CSE

Audisankara University, Gudur | 2020 – 2023 | 76.42%

Secondary Education

Sri Chaitanya Techno School, Venkatagiri | 2020 | GPA: 9.8

ACHIEVEMENTS & CERTIFICATIONS

Organized coding contests and technical workshops as part of College Tech Fest (TechNova), coordinating logistics. Completed a Leadership and Team Management workshop focused on collaboration, communication, and agile team practices.

Top 30 finalist at Hackademia 2k24, a 24-hour National Level Hackathon organised by NEC (Oct 2024)

GeeksforGeeks Practice: Rank 112 in the Institute among 1500+ students.

Google AI Essentials Certification: on how to integrate Generative AI to **complete tasks efficiently**
